I am one of two miracle children as my mother struggled for many years to fall pregnant with both, my sister and I. I matriculated in 2018. I work for an interior decorating company as a personal assistant. The owner of the company is my boyfriends brother in law. My boyfriend and I have been together for a year now and I consider myself extremely blessed to have him in my life. I am very outgoing and loud; I am not

	<p>afraid to walk up to a stranger and start talking to them out of the blue. I'm quite a friendly person, there aren't many people that I don't get along with in the crowd of people that I know. I always have a smile on my face, everyone knows they can always come to me for some cheering up. I am caring, loving and compassionate. I always try give back to the community whenever possible, I find pleasure in helping people in difficult situations, especially children. Whenever I get a free moment I like to donate and help orphanages in my local community. I value my family and friends very much and I was taught from a young age to always be kind to people I meet because you never know where you may end up in the future, that person you met may be your boss one day so you should always be kind and friendly. In the next 5-10 years I see myself as a grade 2 teacher, a loving wife and a mother of 2 beautiful children, hopefully a boy and a girl. I hope that my eggs help you achieve your hopes and dreams because I know that I would pray for someone to help me if I were in the situation you are in. Much Love, your donor</p>
